

## 4-Panel Christmas Card

Misty  
Moonlight

Night of Navy

Basic White

Did you know that an artwork that is made up of four panels is called a Tetraptych? It's a mouthful. I think saying a '4-Panel Christmas Card' is a lot easier! This is a simple but beautiful card layout that can be adapted to other occasions as well by changing the colours, paper, sentiments and other decorative elements. So while I love this as a Christmas Card, let your imagination soar and see what other ideas you can come up with for it!

The cards featured here use the **One Horse Open Sleigh Designer Series Paper** (DSP) that is currently for sale as an Online Exclusive with Stampin' Up! This is only available while stocks last, so if you love it, get it quick! This pdf contains a full supply list at the end. You can shop at [bridgeta.stampinup.net](http://bridgeta.stampinup.net).

Video Tutorial is available at: <https://youtu.be/gkm1agSstx8> and on [Drunkdogcreative.com](http://Drunkdogcreative.com).

---

## CUT PLAN

---

**Misty Moonlight:** Card Base: 10" x 7" – scored at 5" and folded in half

**Night of Navy:** Mat 2: 4.5" x 6.5"

**Basic White (Thick):** Mat 1: 4-5/8" x 6-5/8"  
 Inside Writing Panel: 4.5" x 6.5"  
 Optional scrap for sentiment

**One Horse Open Sleigh DSP:** 4 panels: 1.5" x 4.25"  
*Note: the DSP is 6" x 6" so the best way to ensure each panel is the same length is to cut the sheet to 4.5" long (top to bottom) first. Then cut the 1.5" panels apart.*

---

## INSTRUCTIONS

---

1. Cut all cardstock and DSP.
2. Create the card front - Affix the 4 panels to Mat 2. It's easiest if you lay them out first without glue, then affix one end, then the other (I did the right panel then the left panel), then affix the two middle panels. This helps you spread them evenly. You want an approximately 1/8" margin top bottom and edge around the panels. It's very helpful to have the Mat squared on some grid paper before affixing the panels to it.
3. Affix the card front to Mat 1. The margin around the edge should be very small (about 1/8").
4. Affix the card front (now incorporating Mat 1) to the card base.
5. Affix the inside writing panel to the inside of the card base.

Your basic card is finished!

### Optional Steps:

1. Stamp a sentiment on the inside writing panel.
2. Put a ribbon and bow across the front. If you put a ribbon across the front, put the ribbon in place between Steps 2 and 3 above so you can tuck the ribbon behind Mat 2 before affixing it to Mat 1. Affix the bow after the rest of the card has been assembled.
3. Stamp a piece of scrap paper with a sentiment and then die cut, fussy cut, or punch to desired shape and affix to ribbon to the left of the bow.... If anywhere on the card if not using the ribbon and bow.
4. Dot some glue from the Fine Tip Glue Bottle randomly in a corner diagonally opposite the bow (if using one) and sprinkle Loose Silver Sequins over it. Tap off excess sequins and allow to dry.
